SUMMARY

Determined and resourceful Software Engineer, currently located in Toledo, OH. I specialize in Full Stack Development and Front-End Development to build customer-facing applications. Transitioning careers from being a Professional Touring Musician with 10+ years of experience. Eager to contribute to team success through hard work, attention to detail, and excellent organizational skills. Motivated to learn, grow and excel in Software Development. Open to relocation.

PROJECTS

Portfolio Website

www.rylandoeblers.com

A front-facing portfolio for showcasing projects and displaying links to contact me. Built with React, HTML/CSS & Bootstrap. Deployed with Vercel. My goal was to feature large and small projects I've done with different technologies I know and am familiar with. Also to display my personal design choices.

Lyrically

<http://lyrically-by-ryland.herokuapp.com/>

An app for users to search, save, and rank lyrics. Built with Python, Flask, HTML/CSS, Tailwind, PostgreSQL, Bcrypt, BeautifulSoup & Genius Lyrics API. Deployed with Heroku. My goals were to allow user authentication/authorization for added features, make requests to an external API & implement full CRUD.

EDUCATIONAL TRAINING

Certification Springboard Software Engineering Career Track

Springboard | Nov 2020 - Aug 2021
